

OpenHAP

Use of Low-Cost Technology in
Monitoring Indoor Air Pollution

14th December 2021

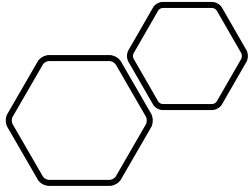

www.eedadvisory.com

1. About EED Advisory Ltd

- EED Advisory is an indigenous Pan African consulting firm offering world-class **technical, analytical and advisory** services in the **climate change, energy and the water sectors**, with a footprint in **17 African countries** including Kenya, Rwanda and Senegal.

2 About the Project

Goals

- Design and evaluate the performance of a low-cost integrated HAP, proximity, and stove use sensor
- Demonstrate the utility of the instrumentation by measuring HAP in 100 Kenyan homes
